SATELLITE CAMPS / CLINICS

This program is designed for other communities to have Hare Goalkeeper Academy staff come in and put together a clinic or camp at your facility or desired location. Satellite clinics and camps are for all ages, and genders. The satellite program has enabled YMCA, Community Recreation, and other community organizations in surrounding areas get a day, weekend or week of instruction by Hare Goalkeeper Academy staff. All sessions will consist of technical/skill building activities. Our goal is to every soccer player in the surrounding communities the chance to build as a soccer player, and to leave them with an excitement about playing soccer when the session is over. You get to pick the date and times and we bring the camp or clinic to you! This has been a fan favorite in the last several years.

These satellite camps and clinics will be designed in anyway you would like. The camps and clinics are flexible in length and the type training offered. We will also offer a small coaches clinic (if interested) prior to each satellite camp or clinic for your staff. There are no age requirements or any gender restrictions. We encourage all communities to look into providing this for their programs. If you want to learn more about the satellite program or want to add this to your list of events you can request more information by contacting us. We will provide the staff and the camp / clinic T-shirt. The number of coaches will depend on number of camp or clinic participants attending. Each player will receive a HGA T-shirt as well as receive the best goalkeeper training in the area. All you need to do is provide the facility / desired location, participants and equipment. If additional equipment is needed, we will supply it for the clinics or camps.

Clinic / Camp Highlights

- **No travel – we can come to you!**
